PROFESSIONAL SUMMARY

Fullstack Developer with over 4 years of experience shipping production-grade web, mobile, and desktop applications for startups and established companies.

Specialized in building pixel-perfect frontends and robust backends using React, Next.js, React Native, and Node.js.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, Python, React.js, Next.js, React Native, Expo, Node.js, Express.js, Nest.js.

Databases & Architecture: MongoDB, Prisma, REST APIs, GraphQL.

Frontend, UI & Tools: Tailwind CSS, Three.js, GSAP, Git.

Integrations: Paystack, Flutterwave.

WORK EXPERIENCE

Fullstack Engineer | Africlana Ltd (Aug 2026 – Present)

- Building and maintaining fullstack web and mobile features for the platform's growing user base.

Fullstack Engineer | A1 Information Technology (May 2026 – Aug 2026)

- Designed and developed the complete website platform covering gadget repair services, an online academy, product listings, and payment integrations.

Fullstack Engineer | Cloudstech (Jan 2026 – Present)

- Building the company's website and internal tools utilizing Next.js, Three.js, and GSAP to create a stunning, interactive web presence.

Fullstack Engineer | 360Gadgets Africa (Apr 2025 – Jan 2026)

- Developed the full product stack across a React Native mobile app, Next.js web platform, and Node.js/Express/MongoDB backend.
- Implemented Paystack and Flutterwave payment gateways and VTU digital services.

Mobile App Developer Intern | Terrachow (Jun 2024 – Mar 2025)

- Contributed to the React Native Expo app for a Nigerian food delivery platform.
- Worked on real-time order tracking, vendor management flows, and UI improvements.

SELECTED PROJECTS

Terrachow: A food delivery mobile app connecting everyday users with local vendors across Nigeria, featuring real-time order tracking and secure in-app payments built with React Native and Expo.

360Gadgets Africa: A full-featured e-commerce platform for electronic gadgets and digital services, handling inventory and order management through a Next.js frontend and Node.js/MongoDB backend.

A1 Information Technology: A complete digital presence spanning a gadget repair training academy and service site, built end-to-end utilizing Next.js, TypeScript, Node.js, and MongoDB.

GlamConnect: A Saudi Arabia-based platform connecting beauty professionals with clients, powered by a robust REST API built with Node.js, Express, and MongoDB to handle booking logic and payment flows.

Cloudstech: A distinctive marketing website for an international software and AI agency, achieving a polished, high-motion experience using Next.js, TypeScript, Three.js for 3D visuals, and GSAP for scroll-driven animations.
